

## MB210LP

The MB210LP is one of Funktion-One's most compact bass loudspeaker enclosures. It provides great bass extension to F81 and F101 systems for applications including bars, restaurants and studios.

The MB210LP's low-profile design was specifically developed to enable it to be fitted under seating and it is highly versatile as a result. It comprises dual 10" loudspeakers with Neodymium magnets, driving a ported resonant chamber enclosure handling 500 Watts and averaging 104dB sensitivity between 55Hz and 160Hz. The forthcoming self powered version elegantly solves the issue of a mono-sum, crossover and amplification set up.

Driver	Sensitivity (1W at 1m)	Power (rms*)	Nominal Impedance
2 x 10" <i>*AES rated</i>	104dB	500W	4Ω
Frequency Response ±3dB:			55Hz - 160Hz
Weight:			29kg (64lbs)
Construction:			15mm Birch Ply
Connectors:			2 x Speakon NL4
